

## Riello UPS and Ducati on the hunt for records in 2022

*The long-standing partnership between the two companies, synonymous with Italian excellence in the world, is renewed for the sixteenth year and sets ever more ambitious goals.*

**Legnago, 10 February 2022.** Riello UPS, a brand of the Riello Elettronica group, a world player in the production of static uninterruptible power supplies, photovoltaic inverters and Energy Storage systems, announces that it has renewed its sponsorship of the Ducati Lenovo Team for the MotoGP World Championship for 2022. Riello UPS will continue to have great visibility in MotoGP thanks to the presence of its own brand on the front fairing and tail of the Desmosedici GP, as well as on the riders' suits and team clothing.

The partnership will try to repeat and improve the excellent results obtained in 2021 by the two Italian companies, which despite the difficulties associated with the ongoing Covid-19 pandemic, have been the protagonists of hugely positive results. Riello UPS has confirmed itself as a global player on the world market thanks to a strategy devoted to technological innovation, surpassing the share of over 600,000 units of UPS sold, while Ducati celebrated in both the sports field with victory in the manufacturers' classification in MotoGP and in the automotive sector with record motorcycle sales and global growth of 24% compared to 2020.

The two Italian companies aim to build on these successes and increase their ambitions for the year ahead both at an industrial and sporting level, where the hope is to triumph also in the drivers' standings with one of the two standard bearers in red, Francesco Bagnaia and Jack Miller. As usual, Ducati will also be supported by Riello UPS technology which contributes to top-level performance by providing advanced UPS to protect the sophisticated electronic control and communication equipment of the Ducati Lenovo Team and to ensure maximum safety and reliability for IT and production systems business.

*“Ducati's victory in the 2021 MotoGP constructors' championship is a result that we celebrated with great enthusiasm because it is the result of a very strong team spirit and continuous work on details, a philosophy that we share with Ducati and which has also allowed our company to close the year with excellent results - said **Fabio Passuello, CEO of Riello UPS** – For 2022, the goal we set ourselves is to further improve, continuing in the direction of technological innovation and sustainability to achieve ever higher standards and continue to represent the excellence of Made in Italy in the world.” - concludes Fabio Passuello.*

*“Riello UPS is one of Ducati Corse's longest-standing partners: our relationship began in 2007 and has continued with mutual satisfaction over the years, cemented by our common values. We are therefore very pleased to be able to announce this renewal, after a year that marked one of the best results in Ducati history in the MotoGP Championship, with the second consecutive constructors' world title, obtained together with the team title. It is above all thanks to important partners such as Riello UPS that we can continue to aim high in such a competitive world. This year we are even more motivated to improve and achieve ever more ambitious goals.” - adds Luigi Dall'igna, General Manager of Ducati Corse*
